**AN URGENT
CALL TO
ACTION!**

TAKING BACK OUR NATURAL HEALTH INDUSTRY!

Come out to hear what you can do to help stop Bill C-36 and to support the campaign to suspend and review the Natural Health Product Regulations!

Constitutional lawyer **Shawn Buckley**, will speak on how Health Canada is wiping out the Natural Health Industry and how thousands of vitamins and herbs are disappearing from health food store shelves. He asks the question, "Have natural health products become so dangerous that we are willing to give up the rule of law?" Unconstitutional legislation encompassed in Bills C-51, C-6, and the current Bill C-36 have not only placed our basic civil liberties and freedoms at risk, but Canada's national sovereignty as well. **We begin the evening with a 24 minute screening of the film 'A Question of Sovereignty'.**

CAPITOL THEATRE, NELSON B.C. 421 VICTORIA ST. | NOVEMBER 18TH 2010, 7PM SHARP!
